FULL COMMISSION PAID AT RENEWAL!*

For Financial Professional Use Only. Not For Use With Public.

The Excelera Plus MYGIA is comprised of the base Excelera MYGA (ICC23-RO-MYGA) with the MYGIA Rider (RO-MYGIA) attached. The Rider modifies the calculation of the Accumulation Value by potentially reflecting indexed interest credits based on the performance of the S&P 500® index and may offer a lower guaranteed fixed interest rate.

*Upon renewal of the contract, full commission will be paid according to the then current Revol One Financial commission schedule for Excelera Plus MYGIA.

Guarantees are subject to the financial strength and claims-paying ability of Revol One Insurance Company and subject to the terms and conditions of the product. Surrender and withdrawal charges may apply.

Revol One Financial™ is the marketing name for Revol One Insurance Company. Revol One Insurance Company is responsible for its own financial and contractual obligations. Revol One Insurance Company is not authorized to conduct business in the state of New York.

THE ADVANTAGE OF BEST INTEREST CREDITING

Available at no additional fee, the Best Interest Crediting feature provides a Guaranteed Fixed Interest Rate of a MYGA PLUS the potential to receive index-linked interest crediting. Interest crediting will never be less than the Guaranteed Fixed Rate but could be higher if the market performs well.

HERE'S HOW IT WORKS

At the end of the Multi Year Guarantee Period, the Accumulation Value is the GREATER of 2 values

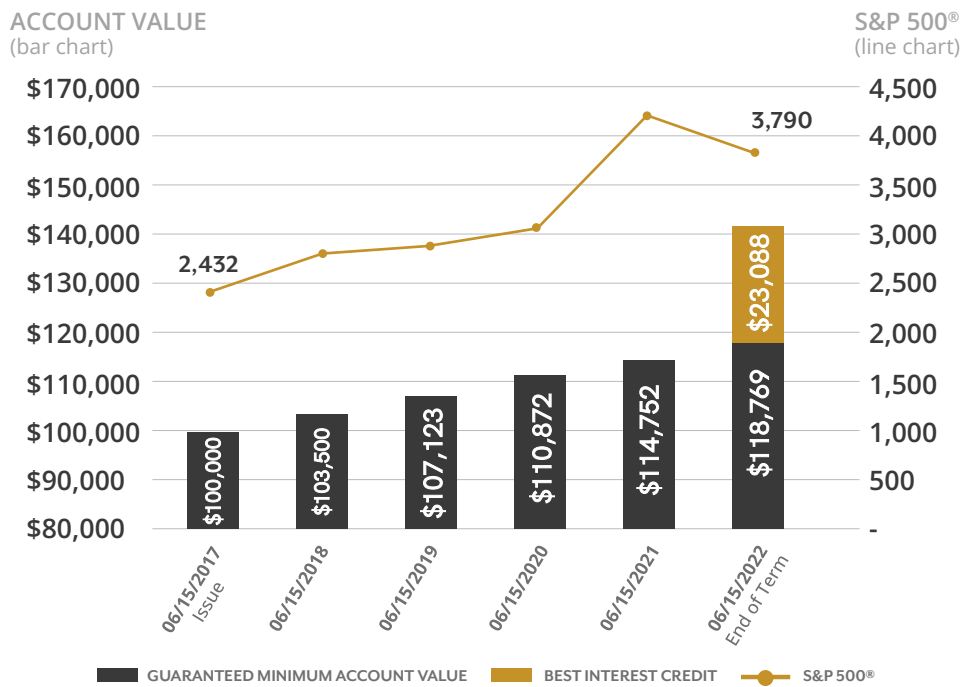

*interest is credited based on the Guarantee Fixed Interest Rate stated in the contract

**interest is credited based on performance of the S&P 500® index, adjusted by a participation rate

If any withdrawals or partial surrenders, other than IRS Required Minimum Distributions, are taken, the Best Interest Crediting feature will be voided. Your end of term Accumulation Value will be calculated using only the Fixed Rate Accumulation value, and the Indexed Linked Accumulation value will not apply.

THE IMPACT OF BEST INTEREST CREDITING ON A 5-YEAR EXCELERA PLUS MYGIA

In this example, THE ACTUAL END OF TERM ACCUMULATION VALUE IS

\$141,857

which is \$23,088 higher than the Guaranteed Fixed Accumulation Value.

Key Assumptions:

- \$100,000 premium
- 3.50% Guaranteed Fixed Interest Rate
- 75% participation rate
- 5-Year term
- No withdrawals or surrender charges were applied to the contract value

For illustrative purposes only. This hypothetical is based on historical performance, which likely will not be repeated. Actual performance could be higher or lower, and if the Guaranteed Fixed Rate Accumulation Value is higher than the Indexed Linked Accumulation Value, there will not be indexed interest crediting. Individual results may vary. Data Source: S&P 500® from June 15, 2017 – June 15, 2022.
